SILK
Homogeneous
and Smooth as Silk

丝绸

VF VISUAL
FEAST

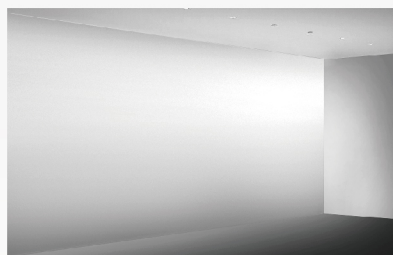

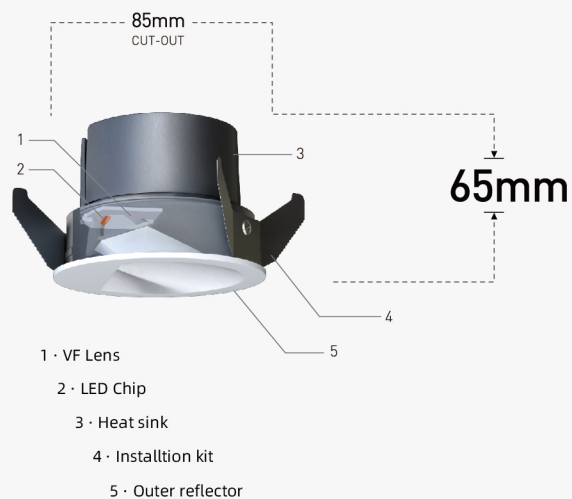

The reasonable and accurate grading can meet various scenarios especially meet the need for high-level business show space and indoor space. Aiming at middle-high end place, VF presents Silk as one of the self-developed competitive product which has technical advantage.

Silk series has presented silk max and silk mini. The light rayed by silk series is soft and exquisite, is bright like silk, and it can evenly wash the whole wall surface from top to bottom, left and right.

As the masterpiece of VF for striding to the world's leading professional lighting brand, SILK series wall washer lamp has been independently developed by VF from core components to industrial design. Just like its name "Silk", it comes from China, will also be famous around the world. From 2017-2018,

Silk Structure

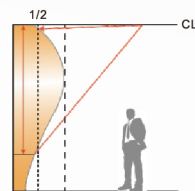

The best wall washing effect comes from the excellent optical design. The excellent optical design of SILK series ensures the illuminance uniformity in the wall surface while creating the light onto the walls upwards or downwards gently. The Light quality of interior space is enhanced with the design of glare control.

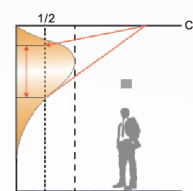

The simulation of 15W 3000K SILK, installed in 0.8m distance between the fittings, 0.8 m away from the wall in 3m high space.

Wallwasher Light

SILK Series Wall Washer models provide a sophisticated balance of reflected light from a supplemental mirror and diffused light from a light distribution control lens to project light over a wide range that extends from the top of wall to the vicinity of the floor.

Light distribution of SILK Series wall washer.

Light distribution of Visual point type wall washer.
