Master Types

Master Structure

Master series was a modular system which could be easily replaced by different accessories such as LED ENGINE/decorative frame/anti-glare accessories without any tools in this way, Master offer an extremely flexible experience to the distributor or electricians when they met different Lighting specification for the projects which could allow them to make fast replacement and save a lot of budget in replacement

Perfect Darklight technology, highly improve the visual comfort Master is 30°vertically and 35°horizontally adjustable. All components can be combined into perfect structure without any tools, just like the outstanding technology and wisdom of tenon mortise.

Designers can choose different power, beam angle, color temperature, color of reflector, or LED light engine or MR16 light source.

From square to round, from narrow trim to trimless, it can be qualified for a variety of interior design. The square version which is with utmost innovation, can be multiple combined into different shapes.
