

MINI LINNOU

Mini linnou installation instructions

1.

SERIES	CUT-OUT	SERIES	CUT-OUT
DR00720	Ø25mm	DR00717	Ø40mm
DR00721	Ø25mm	DR00718	Ø40mm

Installation Step 1 (Suitable for DR00720 and DR00721 lamps)

I Open holes in the ceiling corresponding to the luminaire and the specification model .

II In case of power failure, the lamp is connected to DC24V power supply.

III theArrange the power cord, hold the shrapnel on both sides of the lamp, and insert the lamp into the ceiling hole.

Specific appearance in kind prevail!

2.

Installation Step 2 (Suitable for DR00717 and DR00718 lamps)

I Open holes in the ceiling corresponding to the luminaire and the specification model .

II In case of power failure, the lamp shall be connected to the mains power (no driver, it shall be connected to the adaptive constant current power supply first).

III theArrange the power cord, hold the shrapnel on both sides of the lamp, and insert the lamp into the ceiling hole.

 This product is only suitable for indoor, it is not allowed to be rinsed with water.

 Independent external driver, recessed mounted.

3.

Do not clean LED chip and reflector with hand or towel !

- Use only drivers that comply with IEC or CE safety standards.
- Check if the power supply match with the luminaire.
- Must consider the maximum current value displayed on the label of the luminaire.
- The voltage displayed on the luminaire is not used to select the constant voltage driver, but the voltage covered by the selected constant current driver.
- Take suitable ESD measures to avoid touching bare conductors.
- LED chips can be damaged if be in touch with chemical material or gas. Therefore, it is not allowed to clean the LED housing or luminaire by chemicals.
- The following items are confirmed to have negative impact on the performance of the luminaire, avoid to keep luminaire in the same circumstance with them.
 - Methyl acetate or ethyl acetate (i.e., nail polish remover)
 - Cyanoacrylates (i.e., "Superglue")
 - Glycol ethers (including Radio Shack ® Precision Electronics
 - Cleaner - dipropylene glycol monomethyl ether)
 - Formaldehyde or butadiene (including Ashland PLIOBOND ® adhesive)
 - Dymax 984-LVUF conformal coating
 - Loctite Sumo Glue, Loctite 384 adhesive, Loctite 7387 activator
 - Gorilla Glue, Bleach, Bleach-containing cleaners, sprays
- Remove the insulation material from the luminaire or provide enough space so that the temperature raising will not overpass the limited TC.
- LED chip is very sensitive to switching transients, therefore, LED lamps and appliances must be connected after power cut off, no hotswappable.
- Recommends using the driver indicated on the luminaire manual.
- Must consider the polarity of the product.
- If the external flexible cable or cord of this lamp is damaged, the cord should be replaced by the manufacturer or its service agent or a similarly qualified person
- The light source in this lamp should be replaced by the manufacturer or its service agent or a similarly qualified person

4.
